AIMSOFT SOLUTIONS

AiMSoft Solutions a trusted global software development company with more than 12 years of professional experience. We deliver a full spectrum of software consulting and development services to the clients of many countries across the globe.

AiMSoft Solutions's aim is to be instrumental in making our customer's businesses stronger by providing rich technology competencies, domain expertise, and passion for quality of our software professionals. The corporate vision is to be a one-stop software partner for our global clients while maintaining an open-minded, dynamic, and customer-centric approach to delivering cutting-edge solutions.

WEB DESIGNING AND PROGRAMMING

Website designing plays a vital role, similar to that of advertisements. Your customers get impressed by seeing your product and services which is displayed beautifully and creatively. Also, a good design compels your website visitors to explore your website further and much deeper. We offer brilliant and quality website designing at the cheapest prices. Here we have web site designers who have minimum 5 years of Industry experience and who are aware of the trendy designing. Also we are expert in web programming Asp. Net, Asp, PHP, MSSQL and MySQL

WEBHOSTING / SEO

Providing domain registration and web hosting space at affordable price. Also providing Search Engine Optimization (SEO), Search Engine Marketing (SEM) and Social Media Marketing (SMM)

HI-TECHSCHOOL MANAGEMENT SYSTEM

Hi-Tech School is a School Management Application Software, Which is unparalleled and comprehensive School Software that covers each and every entity of school. It is an interactive platform for all the entities of a school like Teachers, Management, Finance Department, Students and Parents. Hi-Tech School Management software provides good interaction between parents and teachers. Parents can check student's status, exam result, career graph, communication with the class teacher, pay fees online, etc..

CUSTOM BUSINESS SOFTWARE (.NET & SQL SERVER)

Custom business software development is designed to meet the individual need of your company. We analyze the specific requirements of your application to determine the best technology to use for your software solution.

PAYROLL MANAGEMENT SOFTWARE

System to manipulate payroll section in an organization, including TDS,DA, BS, SA, CA, etc The system also clings to attendance management by using punching machine. Can customize this system according to the organization's policy.

BILLING SOFTWARE

Software for any type of business or shops like stationary, books, bakery, etc. Covering each and every entity in the business and also customizing according to user's requirement

IT TRAINING

We are providing corporate training and job oriented training in Software Development, Web Development and App Development with placement assistance to CMM Level companies.
